

Roses ordered as bare root autumn 2014.

Climbing. (36 varieties)

Adélaïde d'Orléans

[DA]

Category Climbing and Rambler Roses (Rambler Roses)

Bred By Jacques

Flower Type Semi-double

Size Medium Rambler

Hardiness Hardy

Fragrance Delicate primrose, Light

Repeating None

Special Characteristics Ideal for arches and pergolas.

The small, pink buds open to beautiful, semi-double flowers, which quickly fade from creamy pink to creamy white. The flowers are held in small, dainty sprays, hanging gracefully from the branch rather like the blooms of a Japanese cherry. There is a light scent that has been variously described as primrose, apple and myrrh. Very beautiful, free-flowering, elegant and healthy. Almost evergreen. 15ft.

[PB]

(Sempervirens Rambler) Clusters of small, shapely, semi-double, soft pink to creamy white flowers. Very floriferous when in bloom. Vigorous and refined.

Category Climbing and Rambler Roses (Rambler Roses)

Colour Creamy white

Flower Type Semi-double

Size Tall Rambler

Hardiness Hardy

Fragrance Musk, Strong

Repeating None

Special Characteristics Giant rambler with huge heads of flowers.

A giant rambler, producing exceptionally large, heavy heads of pearly, creamy-white, semi-double flowers. The strongly fragrant blooms are cupped in shape, the petals revealing a central boss of yellow stamens. The flowers are followed by large quantities of small, orange-red hips which will help to attract birds into the garden. It produces long, thick stems with very healthy, glossy, bright green leaves. 30ft.

[PB]

(Rambler) A vigorous rambler capable of considerable climbing feats, especially in to trees or hedges. The individual flowers of creamy-white, combine to make large drooping trusses. Nice scent.

	<p>Crimson Glory, Climbing  [DA]  Category Climbing and Rambler Roses (Climbing Roses)  Bred By Jackson &amp; Perkins  Colour Deep Crimson  Flower Type Double/Full Bloom  Size Medium Climber  Hardiness Hardy  Fragrance Old Rose, Strong  Repeating Some  Special Characteristics Particularly delicious fragrance.  A particularly fine rose in its climbing form. Classic hybrid tea buds of deep velvety crimson open to large deep crimson blooms, with a loose cup shape. These eventually develop purple tints. One of the most satisfactory of its colour. The whole plant is massed with bloom in early summer, producing occasional blooms later. Richly fragrant. Particularly effective on a tall pillar.  [PB]  (Climbing Hybrid Tea) Shapely blooms of deep, velvety red with a strong perfume. Makes a very good, vigorous climber.  Group Climber  Family Hybrid Teas  Colour A darker/vibrant shade of Red  Flowering Period Summer Flowering  Bloom Shape High Centred  Bloom Type Double  Bloom Size Large  Scent Strength Very Scented (9 / 10)  Shade Tolerance Will tolerate a small amount of shade  Thornyness Quite thorny (8 / 10)  Disease resistance Not very resistant to diseases</p>

Buds of cream open to very double muddled blooms of creamy white. Floriferous.

Scented. Dark glossy foliage. Summer flowering. Size:6m x 3m.

Ghislaine de Feligonde

[DA]

Category Climbing and Rambler Roses (Rambler Roses)

Bred By Turbat

Flower Type Double/Full Bloom

Hardiness Hardy

Fragrance Medium

Repeating Good

The flowers vary greatly in colour. Orange buds open to small apricot blooms with a yellow base, then fade to peach, pink and white. In autumn the flowers tend to be more pink. There is a sweet, musky fragrance. A useful rambler in that it is not too vigorous. It repeat flowers, although not as well as some modern varieties. An almost thornless and very healthy variety. 10ft.

[PB]

(Musk Rambler) A shorter Rambler. Can be comfortably grown as a large bush, especially if given support. Clusters of orangey-yellow, flowers, paling to creamy buff in hot sunshine. Good, glossy, foliage. Almost thornless.

	<p>Gloire de Dijon (1 from DA and 1 from PB)  [DA]  Category Climbing and Rambler Roses (Climbing Roses)  Bred By Jacotot  Colour Buff yellow  Flower Type Double/Full Bloom  Size Medium Climber  Hardiness Hardy  Fragrance Rich, Strong  Repeating Good  Special Characteristics Good repeating. Very beautiful Old Rose blooms.  (Noisette) This famous old climbing rose is an old favourite in cottage gardens, where it was often known as the 'Old Glory Rose'. Large, globular flowers opening cupped that flatten and eventually become quartered. It varies considerably in colour from buff-yellow, to rich apricot and pink, sometimes tinted gold. Flowers early and continues well throughout the season. Strong, rich fragrance. The foliage is thick, rather like a hybrid tea. A much hardier rose than the typical noisette, probably due to a Bourbon influence, which is reputed to be from 'Souvenir de Malmaison'. 15ft.  [PB]  (Climbing Tea) Very large, full Tea-scented flowers of buff to orange. Very free flowering with some repeats later. Deservedly well loved. Vigorous. Bred By Hicks

Colour Apricot-yellow

Flower Type Semi-double

Size Medium Climber

Hardiness Hardy

Fragrance Tea, Strong

Repeating Good

Special Characteristics Good repeat flowering. Very rich apricot flowers.

A vigorous and hardy climbing rose, and one of the best tea roses still in existence.

The blooms are made up of large petals, resulting in long, elegant, waxy buds, which open to large, loosely formed flowers of deep apricot-yellow. These hang gracefully from the branch and emit a delicious, rich tea fragrance. 'Lady Hillingdon' continues to flower throughout the summer with unusual regularity. It has fine contrasting dark green foliage, which is coppery mahogany when young. 15ft.

[PB]

An outstanding rose, combining shapely, apricot flowers with healthy, plum coloured shoots and grey-green leaves. Scented.

Sombreuil Clg

[DA]

Category Climbing and Rambler Roses (Climbing Roses)

Bred By Robert

Colour Creamy-white

Flower Type Double/Full Bloom

Size Medium Climber

Hardiness Hardy

Fragrance Green apples, Strong

Repeating Good

Special Characteristics Very full blooms.

A charming climber. The flowers have many petals arranged in the form of flat, quartered rosettes. They are creamy white, sometimes with a hint of pink at the centre, and have a delicious tea scent. In quality and refinement they compare with the very best Old Roses, although 'Sombreuil' is a hardy rose that repeat flowers well; in fact, we know of no other old variety that produces better flowers in autumn. 12ft.

[PB]

(Climbing Tea) ♦ Colonial White ♦. Pure white base to the classically formed flowers, sometimes flushed with pink. A superb rose.
